

PROFESSIONAL CORROSION PROTECTION SERVICE

On site corrosion protection and correction for boats and marinas to protect from the harmful effects of the corrosion caused by salt. Salts Gone™ is proven effective at eliminating the salt that causes corrosion and leaves behind lasting corrosion protection. 100% safe on wax and ceramic coatings. Non-Toxic, biodegradable and non-hazardous.

Salts Gone®
SERVICES
of South Padre, TX

WHY CHOOSE US

- Salts Gone™ is proven to 100% eliminate salt and protect against corrosion
- Extend engine life with regular engine flushes. Keep fabrics, electronics, wax and ceramic coatings looking new with our regular service.
- We provide a quick and professional service that is simple for you as the customer. We come where the work is.
- We offer both corrosion protection and rust correction services. No matter what state your existing property is in we can bring it back to life and prevent further damage.

How It Works

- Salts Gone™ attracts and removes salt through a chemical process.
- Salts Gone™ leaves behind corrosion inhibitors that prevent corrosion from salt between applications.
- Salts Gone™ contains surfactants (soaps) that aid in the general cleaning of the exterior of the property
- When salt is fully removed and corrosion inhibitors are left behind there is no catalyst for corrosion. The property will age at the same rate as a property not located in a saltwater environment.
