

PROFESSIONAL CORROSION PROTECTION SERVICE

On site corrosion protection and correction for coastal homes to protect from the harmful effects of the corrosion caused by salt. Salts Gone™ is proven effective at eliminating the salt that causes corrosion and leaves behind lasting corrosion protection. Specialized protection for AC units, light fixtures, outdoor appliances, boats, paint and much more!

Salts Gone® SERVICES

of South Padre Island, TX

How It Works

- Salts Gone™ attracts and removes salt through a chemical process.
- Salts Gone™ leaves behind corrosion inhibitors that prevent corrosion from salt between applications.
- Salts Gone™ contains surfactants (soaps) that aid in the general cleaning of the exterior of the property
- When salt is fully removed and corrosion inhibitors are left behind there is no catalyst for corrosion. The property will age at the same rate as a property not located in a saltwater environment.
