HOW IT WORKS

- Salts Gone™ attracts and removes salt through the chemical process of chelation.
- Salts Gone™ contains a salt remover, corrosion inhibitor and surfactants (soap).
- Corrosion Inhibitors left behind prevent corrosion from salt between applications.
- We come to you! Our service is quick and non invasive. It can be done virtually anywhere! Our product will not harm landscaping, pets, water or neighbor's properties.
- We offer both corrosion protection and rust correction services. No matter what state, we bring your RV back to life and prevent further damage.
